FOR IMMEDIATE RELEASE, March 2008

PHOENIX EAST AVIATION RECEIVES FIVE YEAR ACCREDITATION

Daytona Beach, Florida, USA -- Phoenix East Aviation, Inc. (PEA) announces the successful re-accreditation of its pilot training and airline dispatcher programs. The academy received a five-year accreditation, which is the maximum accreditation period given by the reviewing agency. Phoenix East Aviation is nationally accredited by the Accrediting Council for Continuing Education and Training (ACCET), which provides institutional accreditation for organizations whose primary function is educational. ACCET has been officially recognized by the U.S. Department of Education since 1978 as a reliable authority assessing the quality of education or training provided by the institutions of higher education and the programs they accredit. ACCET is also certified as an ISO 9001 Quality Management System under the international standards established by the International Organization for Standardization.

Phoenix East Aviation passed a rigorous review and evaluation to be so certified for this five-year period. Through such accreditation, ACCET promotes quality-oriented continuing education and training. Phoenix East's review was focused on educational quality, continuous program assessment and improvement of educational practices. ACCET's principles promote continuing education and training programs of the highest quality and integrity. Phoenix East meets those rigorous standards with programs of study that are educationally sound, up-to-date and of high quality. The flight-training academy also meets the standards for ethical advertising, admission and enrollment practices.

Phoenix East Aviation, Inc. provides comprehensive pilot training, specializing in professional flight instruction. FAR Part 141, private, commercial and multi-engine professional programs and FAR Part 61 courses are offered. The school is nationally accredited and is approved to offer Veteran Benefits under the G.I. Bill, as well as offering M-1 and J-1 visa programs for foreign students. Headquartered in Daytona Beach, Florida, where the climate permits flight operations 350+ days a year, the school has been in continuous operation since 1972.
